

# Corycian Fire

Steve Hackett

Consumed with deep desire  
When the fury meets the fire  
Death is challenged with  
A burning light  
In a forest of stone that springs to life

The flying flames pass  
As torches light the path  
Spirits of night  
Their teeth are shining bright

Into the mountainside  
Beneath the claw and hide  
The ancient head  
The cavern of the dead

In darkness of the tomb  
Emerging from the womb  
Shedding its skin  
The serpent from within

From deep within the stone  
Beneath the earth the bones  
Spirit awakes  
The oracle speaks again
