# Don't Fall Away From Me

**Steve Hackett**

Winds of change are blowing constantly
Watch the leaves that fall from every tree
Don't fall away from me

With your eyes you promise sanctuary
All that's left is mediocrity
Don't fall away
Don't fall away from me

Thoughts that run away, she'll be back some day for my love
Seeds that take the root, later they'll hold fruit
Show your love, please turn around

Evening falling on an unmade bed
Each new morning finds a moth is dead
Don't fall away
Don't fall away from me
