

# Don't Fall

Steve Hackett

Fascinating, Captain...

When I come in from the cold  
I need somebody to hold  
Sometimes it's the price you pay  
Feels so good I can't stay

Don't fall in love with me  
I'll hurt you, can't you see?  
Don't fall in love with me  
It was never meant to be

Better stop wearing that frown  
When Johnny comes marching in to town  
You can squeeze the trigger on my gun  
Get ready, start to run

Don't fall in love with me  
I'll hurt you can't you see?  
Don't fall in love with me  
It was never meant to be
