

Get Me Out

Steve Hackett

Put on your poker face, play the game
Caught in the ring in a circus of pain
Stuck to the wall on a spinning wheel
A marionette unable to feel

Held like a butterfly glued to a pin
Pulled up and down by invisible strings
The curtain comes down, can't see the view
A dog brought to heel unable to feel

Smoke and mirrors
Let me out of this hell
Cameras watch every move
Let me out of this cell
