

Wonders

Steve Holy

Seasons come and seasons go
The sun will shine and the cold winds blow
But my love for you will never change
Never change

This roller-coaster can spin you 'round
Take you high as a mountain then plunge to the ground
But my love for you will never change
Never change

Doesn't matter when or where
My love will always be there

As sure as there's snow on the top of Mount Everest
As sure as Niagra's gonna fall
As sure as "I love you" echoes off that canyon wall
As sure as there're lava rocks at volcano
As sure as the northern lights will glow
You may wonder 'bout the seven wonders
But with my love, you won't wonder anymore

When we're old and turning grey
When every breath is a brand new day
Well my love for you will never change
Never change

Doesn't matter when or where
My love will always be there

As sure as there's snow on the top of Mount Everest
As sure as Niagra's gonna fall
As sure as "I love you" echoes off that canyon wall
As sure as there're lava rocks at volcano
As sure as the northern lights will glow
You may wonder 'bout the seven wonders
But with my love, you won't wonder anymore

Doesn't matter when or where
My love will always be there

As sure as there's snow on the top of Mount Everest
As sure as Niagra's gonna fall
As sure as "I love you" echoes off that canyon wall
As sure as there're lava rocks at volcano
As sure as the northern lights will glow
You may wonder 'bout the seven wonders
But with my love, you won't wonder anymore
You won't wonder anymore
