

On My Way Home

Steve Lukather

It's a .. where the hell am I,
Is that time a .., it seems that I just close my eyes,
...sweats of last ..the skies, uhhh uhhh.

...I hear the ..call,
to go
But ..eyes there's a star to ..,
...soon but I don't care at all.
And as the years begins to show me,
My life in time ...see,
The years are here.. I and change.

Chorus:

Well there's just another way in time,
Something buying deep inside
Never felt so tired on and on, (tired on and on)
Just a thousand lonely miles...see you smile

...and I'm a little stoned, I'm on my way home.

My life in time ...see,
The years are here.. I and change.

Chorus:

Well there's just another way in time,
Something buying deep inside
Never felt so tired on and on, (tired on and on)
Just a thousand lonely miles...see you smile
...and I'm a little stoned, I'm on my way home.

[Chorus:]
