

Rest Of The World

Steve Lukather

Can we stay right here forever
And listen to the rain on the windowsill
While our hearts beat together
Feels like time is standing still

I wonder what the Rest Of The World
Is doing tonight
are they falling in love like you and I
So close your eyes and hold me tight
And we'll leave the world behind

I get lost inside your whisper
It's my secret hideaway
You make me peaceful like a river
No one else on earth could feel this way

This must be perfection
There ain't nothing left to need
You know it's meant to be
If they could only see
You and me
Girl it feels so right

I wonder what the Rest Of The World
Is doing tonight
Are they falling in love like you and I
So close your eyes
And hold me tight
Hold me tight
And we'll leave the world behind (2x)
