

# With A Second Chance

Steve Lukather

This town has got me running scared  
We're running out of time girl  
Slogans painted everywhere  
Messin' up my dream world

I'm trying to make it on my own  
Find it all by myself  
I can take the overflow,  
Could've been me or you  
Just like somebody else

I ain't going anywhere  
Without you by my side girl  
Someone like you comes around just one time  
Even the weakest of hearts will survive

With a second chance  
I know we can make it girl  
With a second chance  
Love will last forever

Breathing in this filthy air  
Is tearing me in two girl  
I hear the sirens every night  
Like echoes in a cruel world

Nothing that I say or do  
Seems to matter at all  
Everyone is so confused That's why I had to call

Just hearing you across the line  
Is good enough for me girl  
Someone like you comes around just one time  
Even the weakest of hearts will survive

With a second chance  
I know we can make it girl  
With a second chance  
Our love will go on forever

Someone like you comes around just one time  
Even the weakest of hearts will survive

With a second chance  
I know we can make it girl  
With a second chance  
Our love will last forever

With a second chance  
I know we can make it girl  
With a second chance  
Our love will last forever
