

## Better Days

Steve Moakler

You look out the window  
And you pull the shades  
You look in the mirror  
Then you turn away

Cardboard sign on the side of the road  
Says we're tired of the same ol' same ol'

Better days somewhere up around the bend  
They ain't here now, but it's not the end  
Might be losin' ground, but we can't lose faith  
Gotta believe there will be better days  
Gotta believe there will be better days

Ah, yeah  
Better days

If it's an uphill climb  
We'll kick it in low gear  
'Cause we can't go back  
And we can't stay here

The world keeps spinnin', keeps spinnin' around  
There'll be sun where the clouds are now

Better days somewhere up around the bend  
They ain't here now, but it's not the end  
Might be losin' ground, but we can't lose faith  
Gotta believe there will be better days  
Gotta believe there will be better days

Ah, yeah  
Better days

Keep your head up, it'll get better  
Keep your head up, head up  
Yeah, you'll see  
Keep your head up, it'll get better  
Keep your head up, head up  
Yeah, there'll be

Better days somewhere up around the bend  
They ain't here now, but it's not the end  
Might be losin' ground, but we can't lose faith  
Gotta believe there will be better days  
Gotta believe there will be better days  
Gotta believe there will be better days
