

# Chesney

Steve Moakler

You're a coke and rum  
You're a trip around the sun  
You're a hammock in the trees, yeah baby  
You're a long July  
Best one of my life  
That cracked CD you gave me  
Chesney, Chesney

You're that mid west girl  
Looks like she's at the beach  
Straw cowboy hat and them bleach white jeans  
Singing I'd go back at the top of your lungs  
If I could sum you up in a memory

One arm around you and the other in the air  
The lighter in my hand baby, I'm right there  
Hearts beat fast when the music's slow  
Baby, time moves on even when you don't  
Stealing every kiss that you would let me  
I think about it now and it still gets me  
Chesney, Chesney

I soak you in like the rust belt sun  
On my highlight read, baby, you're the one  
That got away but baby, that's alright  
Some things we're only meant to have for a little while

One arm around you and the other in the air  
The lighter in my hand baby, I'm right there  
Hearts beat fast when the music's slow  
Baby, time moves on even when you don't  
Stealing every kiss that you would let me  
I think about it now and it still gets me  
Chesney, Chesney

One arm around you and the other in the air  
Chesney  
The lighter in my hand baby, I'm right there  
Chesney, Chesney  
Chesney, Chesney
