

Damn, Do I Think About You

Steve Moakler

I don't care about parts
I don't care what come around
When I walk by these fancy stores
I don't wonder how works inside
I don't care much about money
If I'll be your man

When I'm talking with Jesus I don't wonder if He's there
I don't care much if I win or lose
I don't worry where I'm here
Damn, do I think about you,
I think about you

I don't give much talk to
Well I lead my hand in air
I'm just driving down this valley
And shine a little light
But when you shine a little light

I don't care much if I win or lose
I don't worry where I'm here
Damn, do I think about you,
I think about you

I don't care much if I win or lose
I don't worry where I'm here
Damn, do I think about you,
I think about you

Damn, do I think about you,
Damn, do I think about you,
Damn, do I think about you.
