

Humble Operations

Steve Moakler

Slowly spinning in this change
Hearts will brake now and it ain't right
I'm just packing paper bags
There in table wills and trails

Midnight stocking shelves, me will lie slow
Then putting papers at your door
Before we fake that nothing for

Then we all wake up to different situations
We're different covers for a reputation
Levers seems the world be in rotation
It's been a humble operation

But daddy was an working
He just keep for 'where coming
Wasn't too proud to swear for me
And he made that sugar that I could

Then we all wake up to different situations
We're different covers for a reputation
Levers seems the world be in rotation
It's been a humble operation

What you show it in the dark
Is there on your shirt, taking from the sun babe
Just to have it done
How we take a lady speaking with a baby
Is working for a man how all he can

Moving all time for me and going out
If you packing you so keep your head in high
You don't give up you don't give in
And you tell the world we living in

And now we all wake up to different situations
We're different covers for a reputation
Levers seems the world be in rotation
It's been like humble operation
Let's getting on, a humble operation
