

# Nightlife

Steve Moakler

Come on, alright  
This town turns to a rocket on Saturday night  
It's a blast off baby, yeah, it's out of sight  
The dirt cheap cover and a kick ass band  
And they sound real good with a drink in your hand

Come on, come on, baby, baby  
Let's see what we get into  
Oh yeah

Take my hand honey, hold on tight  
For another night of night life  
We'll hit the town and we'll make it right  
With another night of night life  
Fly off the rails for a little while  
I know it's working when I see that smile  
We'll throw it down and we'll let it ride  
On another night of night life, alright

Here you come, looking like a knock out punch  
Wanna spin you round, you wind me up  
No, I ain't holding nothing back  
Long as you keep on looking at me like that

Come on, come on, baby, baby  
Let's see what we get into  
Oh yeah

Take my hand honey, hold on tight  
For another night of night life  
We'll hit the town and we'll make it right  
With another night of night life  
Fly off the rails for a little while  
I know it's working when I see that smile  
We'll throw it down and we'll let it ride  
On another night of night life

Shining in the neon  
Baby getting me all crazy  
Howling at the moon  
Just loving what you're doing to me, u-huh  
Have a little faith in the moon and stars  
With a little magic it could all be ours for a while

Take my hand honey, hold on tight  
For another night of night life  
We'll hit the town and we'll make it right  
With another night of night life  
Fly off the rails for a little while  
I know it's working when I see that smile  
We'll throw it down and we'll let it ride  
On another night of night life

Oh yeah, come on, yeah  
Oh, it's alright, let's take a ride on the nightlife  
Oh, it's alright, let's take a ride on the nightlife  
Oh, baby, it's alright, let's take a ride on the nightlife
