

On Your Side

Steve Moakler

Silence on the cover sadness
Broken standing turn to maniacs
Caught yourself try to keep your cool but it's long gone
Done sometimes but make you tired
All the secrets have in spite you
I'm the wrong and have a bad deal and it's hard, hard

Keep on knocking but the doors don't open
Try to stop it but the hurt keep going
Have a breath, close your eyes
Yeah, I've been on your side with a broken heart
Broken heart,

Tell that guy you don't believe him
Not a skill don't look to evil
Well no one see what you seen, what you sais what you mean
Ooh no

Keep on knocking but the doors don't open
Try to stop it but the hurt keep going
Have a breath, close your eyes
Yeah, I've been on your side with a broken heart
Broken heart, yeah

I've been down, I've been real fall down
Where you spinning right now?
I've been down, I've been real fall down

Keep on knocking but the doors don't open
Try to stop it but the hurt keep going
Ask the Jesus blow for a sing
Or to give it off your mind
Yeah you'll broking heart, broking heart, broking heart
You'll broking heart, heart, heart
