

# Makes No Difference

Steve Perry

You got that somethin' I really need  
And it's burnin' me deep inside  
And I needed someone like you  
You kept me warm

I know just how I want to love  
Someone like you, baby  
There's a sweet right to the bone  
And I love to feel you, baby

I get excited  
Ooh, just to be with you  
Come on baby  
Whoa, whoa

Don't make no difference  
What you said to me  
Yeah, yeah, said you want me  
But that you got to be free, oh  
I'm running  
Running from love

Squeezin' tight, you feel so good  
Holdin' on to you  
When I needed to turn you on  
Squeezin' me through and through  
Like the time I said to you  
Yeah, yeah

I get excited  
Ooh, to be with you  
Come on baby  
Whoa, whoa

Don't make no difference  
What you said to me, yeah  
Yeah, said you want me  
But that you got to be free  
I'm running  
Running from love

I get excited  
Ooh, just to be with you  
Come on baby  
Whoa, whoa

Don't make no difference  
What you said to me, oh  
Said that you want me  
But that you got to be free  
I'm running, oh  
Running from love
