

You Belong To Me

Steve Perry

Was it you
Was it I
Did I run
Or say goodbye
We were strong
Even I can't deny
Or was it you?

Was it you
Was it I
Is it wrong
To wonder why
We had it all
They say true love never dies
Is it true

And though we're miles apart
You belong to me
And though my heart still cries
You belong
You belong to me

Our love was alive
And it would last forever
We fought to survive
We've always been the same, my love
Now, I'm wishin' and hopin'
For what we had before
On our horizon
A greater love, and more

I never knew
I never tried
To feel the pain
You've held inside
And now you're gone
And is it too late
To reach for you?

And though we're miles apart
You belong to me
And though my heart still cries
You belong
You belong to me

Our love was alive
And it would last forever
We fought to survive
We've always been the same, my love
Now, I'm wishin' and hopin'
For what we had before
On our horizon
A greater love, and more

And though we're miles apart
You belong to me
And though my heart still cries

You belong
Till the rivers all run dry
You belong to me
