

More Than Enough

Steve Wariner

Sometimes I forget to thank you
For all you've done for me
It slips my mind but you forgive me
And never even ask me why
But sweetness is in short supply

You give me more than enough to just get by
More than enough to satisfy
When money's scarce and times get rough
You know you still got a tough love
You give me more than enough love

What could ever make me leave you
Who could take my heart away
When everything I need is with you
Tomorrow, now and yesterday
Our blessings seem to multiply

You give me more than enough to just get by
More than enough to satisfy
When the world is cold and it calls my bluff
You know you still got a tough love
You give me more than enough love

Let me open up my heart to you and thank you for it
I truly love you for it

There might be some people out there
Richer than we'll ever be
We've got something good as money
Purer than the finest gold
Something money just can't buy

Yes, we've got more than enough to just get by
More than enough to testify
When the world is cold and it calls your bluff
You know you still got a tough love
You give me more than enough love
You know we've still got a tough love
You give me more than enough love
You know you still got a tough love
You give me more than enough love
