

## Way It Goes

Steve Wariner

Some people talk when they ought to be listening  
Ramblin' on maybe they don't know  
That you can't learn anything when you're mouth is moving  
That's the way it is you better get used to it  
That's just the way it goes

Daddy told me back when I was just little  
Life's gonna hand you nothing but a hard row to hoe  
The worlds gonna be unfair and nothing's gonna come easy  
That's the way it is you better get used to it  
That's just the way it goes

It is what it is you can't run and you can't hide  
You gotta keep on smiling keep on living and enjoy the ride

Look all around and see what it's come down to  
The brand new normal in the cities everywhere you go  
Everybody living their lives while looking back over their shoulder  
Yeah that's the way it is we better get used to it  
That's just the way it goes

It is what it is you can't run and you can't hide  
You gotta keep on smiling keep on living and enjoy the ride

Politicians talk when they ought to be listening  
Carrying on I guess they don't know  
That you don't learn a damn thing when you're mouth is moving  
That's the way it is you better get used to it  
That's just the way it goes
