

Under the Weather

Steve Wynn

It's not the way that you smile
That makes me tremble
Phrases that beguile
It's never that simple
You say it could have been
Anyone anywhere anytime
Under the weather

It's like a wave that never breaks
A heartbeat that never fades
Another cigarette another sleazy escapade
It's all the same to me
If it's all the same to you
Under the weather

So much can happen by accident
No rhyme no reason no one's innocent

And all the people that are there
You'll have to excuse them
Take the ribbon from your hair
You never used them
I'm closing down I'm checking out
Under the weather
