

# Love Take Me Over

Steven Curtis Chapman

I hear the clock beep, pull me out of my sleep  
Tell me there's a day ahead of me  
Trying to wake up, sipping on a hot cup  
With the little lady in green

And I'm praying 'bout the man I wanna be  
Saying, God, please take all of me  
And fill me up with Your love

Love, take these words that I'm speaking  
Love, take these thoughts that I'm thinking  
Love, take me over  
Love, fill up all of my space and  
Love, stand right here in my place  
Love, hear this prayer that I'm praying  
Love, take me, love, take me over  
Love, take me over

This is what I'm sure of, I can only show love  
When I really know how loved I am  
When it overtakes me, then it animates me  
Flowing from my heart into my hands

So I'm praying, Father, help my heart believe  
That right now You're singing over me  
And fill me up with Your love

Love, take these words that I'm speaking  
Love, take these thoughts that I'm thinking  
Love, take me over  
Love, fill up all of my space and  
Love, come stand right here in my place  
Love, hear this prayer that I'm praying  
Love, take me, love, take me over  
Love, take me over

(Take me over, take me over)  
Let Your never-ending, never-failing, all-consuming love  
Take over me

So I am praying, Father, help my heart believe  
That right now You're singing over me  
And fill me up with Your love

Love, take these words that I'm speaking  
Love, take these thoughts that I'm thinking  
Love, take me over  
Love, fill up all of my space and  
Love, stand right here in my place  
Love, hear this prayer that I'm praying  
Love, take everything that I'm doing  
Love, like a river, flow through me  
Love, take me over

Love, fill up all of my space and  
Love, stand right here in my place  
Love, hear this prayer that I'm praying

Love, take me, love, take me over  
Love, take me, love, take me over  
Love, take me, love, take me over  
Love, take me over
