

Love You With My Life

Steven Curtis Chapman

There is a pressing question
My heart's been askin' me
When I say, "I love you Lord"
What does it mean?

I know it's one thing to say it
And another thing to do
How can I show you it's true?

I'm gonna love you with my life
I wanna love you with my life
I'm gonna listen and obey
I'm gonna live these words I say
I'm gonna love you with my life
With my life

Some people love with money
Some people love with words
Some people love because they love the returns
Yet with all these complications
The greatest love is always found
In the one who lays his life down

I'm gonna love you with my life
I wanna love you with my life
I'm gonna listen and obey
I'm gonna live these words I say
I'm gonna love you with my life

He said, "If we love him
We're gonna do the things he told us"
Walk the path he showed us
So, if you love him
Show him it's true in how you're living"
If you mean it, say it with me come on

I'm gonna love you with my life
Love you, love and as I listen and obey
I'm gonna live these words I say
I'm gonna love you with my life

I'm gonna love you with my life
I wanna love you with my life
I'm gonna listen and obey
I'm gonna live these words I say
I'm gonna love you with my life

I'm gonna love you with my life
I wanna love you with my life
I'm gonna listen and obey
I'm gonna live these words I say
I'm gonna love you with my life
I'm gonna love you with my life
I wanna love you with my life
