

# Out Here

Steven Lee Olsen

Bought a little land  
Had to have a barn  
Landed me a woman with horses in her heart  
True what they say grass is greener on a farm  
It'll make a long day worth it  
The sun goes down it gets colder  
So yeah the closer I hold her  
Where it's going, it's moonshine clear  
Shootin' stars out the sky  
Talkin' a hood hot night  
The kind, that can only happen out here

With a bonfire flicker, and a red solo sipper  
Catch a heel to toe on a Lucchese  
Out here we bump a little Strait  
Make a acre shake  
Roll up and get a Backwood blazing  
Honey so thick it make a weekend slower  
Beer is better on a John Deere mower  
Static automatic music to my ears  
Wouldn't have it any different  
Good God I love livin' out here, out here  
Wouldn't have it any different  
Good God I love living out here

Something bout Kentucky blue under your feet  
Clothes line of Carhartt, swinging in the breeze  
Whole lotta nothing as far as I can see  
It just don't get better  
Than rooster crow in the morning  
Dancing on wraparound porches  
Making sweet tea, making it disappear  
With an angel by my side I'm building a life  
The kind you can only build out here

With a bonfire flicker, and a red solo sipper  
Catch a heel to toe on a Lucchese  
Out here we bump a little Strait  
Make a acre shake  
Roll up and get a Backwood blazing  
Honey so thick it make a weekend slower  
Beer is better on a John Deere mower  
Static automatic music to my ears  
Wouldn't have it any different  
Good God I love livin' out here, out here  
Wouldn't have it any different  
Good God I love living out here

Give me a bonfire flicker, with a red solo sipper  
Catch a heel to toe on a Lucchese  
Out here we bump a little Strait  
Make a acre shake  
Roll up and get a Backwood blazing  
Honey so thick it make a weekend slower  
Beer is better on a John Deere mower  
Static automatic music to my ears  
Wouldn't have it any different

Good God I love livin' out here, out here  
Wouldn't have it any different  
Good God I love living out here
