Renegades

Harvest is plenty but many will slide on the rise

Many felt back in they ways
N forgot the basic principles
N the face of they Father
Road of the wicked who hardened they heart
Put they self in that place forgot to put they guard up
Loving what leading to death

They go taking the steps to they grave
That lead to the set up
Stepping a decade I promise don't easier
I got scars reflecting the let up
Traveled too far to jus settle and
What I look like sneaky linking
With jezebel
Left me laughing felt like SNL
Focus feeling like Blessing now
Foot on they neck
Make 'em feel just how we stepping out
Every weapon armored and wit me
I'm letting out
Every weapon formed against me is getting a round

(We don't fold we don't bend)
(Ain't for play)
(Don't pretend)
(From beginning)
(Ain't no end)
(Got the rock)
(Time to roll)
(Where the ops)
(There they go)
(Lock n load)
