

# All I Know

Steven Malcolm

Look me in my eyes and see I'm focused  
Told 'em pop the tape I demonstrate and get to Rollin  
I just mix precision with no limits that's the potion  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know  
Mama told me stay up on my game and never fold son  
May I break the bank go for the safe just like I stole something  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know

Riding top down in the city with my woes  
Stunting is a habit it's in my jeans like Girbauds  
I stay wit them shootahs so don't ever get too close  
This industry is full of fakes and now I gotta  
Become the new trending topic  
I got to do everything for the profit  
Me I've been stressing if I can be honest  
Only way out when you come from the bottom  
I gotta give it my all got a son on the way  
Gotta pave the way for the Malcolm's  
I gotta be the real difference in my community  
Change my family outcome  
All I know winning it's in me like God is  
I get it by spitting and written Ebonics  
I don't fit in I'm on top like a cockpit  
Minding my business I'm shining while probably  
Handling business I'm looking for property  
Grip on the game can't take it from y'all!

Look me in my eyes and see I'm focused  
Told 'em pop the tape I demonstrate and get to Rollin  
I just mix precision with no limits that's the potion  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know  
Mama told me stay up on my game and never fold son  
May I break the bank go for the safe just like I stole something  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know

I can put a mask on and pretend because that's all they know  
I live in a day and age were copy paste is their main goal  
I've been to the top functions I'm still not impressed  
Got my press on for the press they want to press me with same questions like  
Are you Christian or you switchin  
Me I'm just me tell me the difference  
I am the profit I got all my sandals  
Came for the souls I don't need a mantle  
Legendary what I'm onto yeah  
Proceeding with no caution yeah  
I told the game I belong to you  
I'll bring the rage to the function

This is all I know

I look in the crowd and see a sea for the family  
All I know yeah  
All I know yeah

Look me in my eyes and see I'm focused  
Told 'em pop the tape I demonstrate and get to Rollin  
I just mix precision with no limits that's the potion  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know  
Mama told me stay up on my game and never fold son  
May I break the bank go for the safe just like I stole something  
Tell dem bwoy listen when me say this all I know  
All I know yeah  
That's jus all I know
