

Believe In Me

Steven Malcolm

Told me I can't
Said that I won't
OK we going to see about it
Felt like nothing made it into something they don't like to think about it
Same off stage ain't nothing changed they know that I be about it
Came from the bottom made it to the top pass me the rock you know they believe in me
Believe in me
Believe in me
Believe in me
Believe in me
Believe in me
Believe in me
Believe in me

I came from the bottom
My family had nothing
Mom was abused
Dad was accused
I live to reap the percussion
Come from the dreadlocks
I was born out of wedlock
They told me I wouldn't make it now the boy poppin' in like bacon fresh out the...
Now that I'm top 10 they running up flicking their pictures I really do not understand
Didn't they see the potential while sleeping I'm putting in work giving all that I can
Breaking the cycle's right hand on the Bible I'm teaching my son how to become a man
Making disciples hands up with a title I told him that this was just part of the...
I take the ball and run point like I'm Kobe
Pen to the paper when they try to fold me
I can't believe what this man really told me
Think I'ma quit then you must not know me
Believe in me
Believe in me
Believe in me
Believe in me

Said that I can't
Said that I won't OK we'll see
Load up clips
Aim that thing
Then ring ring ring
Believe in me
Believe in me
Believe in me
Believe in me

I was an underdog
So shy that I failed second grade when I was coming up
Now I get paid using my words
I think it's hilarious
I really run it up
Bro said they ain't hype enough

I bring it back so the Ragers can get it jumping like it's double Dutch
Humble and thankful humble and thankful
I could've been in the dirt like a duppy
I should've gave up when dad was deported
And mom was addicted and left me all lonely
Believe me it wasn't easy
Told 'em believe in me
I'll take off in like 5, 4, 3
Shout out to 1, G.O.D
Told me only go B.I.G
Told me D.I.E to L.I.V.E
That right there the key, told me
Open up the door kick out the doubt and believe in me
They cannot handle your energy
Take a look at your life and believe in me
