

# Demons

Steven Malcolm

I got these demons in my brain  
Tellin' me to go slow  
Oh, you're far away  
You wouldn't know  
When I lie see you couldn't hold me  
When I was down deep you couldn't fool me  
I got these demons in my brain  
You wouldn't know know

Got these demons in my brain  
Lord I pray you take the pain  
I've been struggling again  
Feel like I've been fighting all alone  
I've been going through the battle  
Trying to make my way home  
Devil trying to block my shine  
I stick and move like them Ali  
Demons on the move like the first of the month  
Got me lost and confused like yeah yeah

They've been in my head telling me my worth  
Telling me what hurt to bring me down and take  
Into the dark like curfew until I break  
Demons in my brain!

I got these demons in my brain  
Tellin' me to go slow  
Oh, you're far away  
You wouldn't know  
When I lie see you couldn't hold me  
When I was down deep you couldn't fool me  
I got these demons in my brain  
You wouldn't know

These people acting demonic  
I put my heart into sonics  
My problems come out melodic  
I'm all alone  
Looking for love in the wrong place  
Cuz they just wanna hit it and run  
Can't believe this damage is done  
Life's a movie full of Bad Guys  
Call me Tom Cruise  
I ain't going out without a fight  
The worlds full of demons  
They all scheming  
And kick me when I'm down  
I would never love without a reason  
What's really lost is found

Wishing I was dead when I was 14  
Said they had love, but they would never see me  
For who I am  
But I had to give it up to the place where it began

I got these demons in my brain  
Tellin' me to go slow

Oh, you're far away  
You wouldn't know  
When I lie see you couldn't hold me  
When I was down deep you couldn't fool me  
I got these demons in my brain  
You wouldn't know
