You not the friend, you a foe

He want me to sell him my soul like I didn't know that the Devil is a liar  
Yeah, a thief in my heart coming to kill, steal me away from the calling (From the calling)  
Serpent and prince of darkness  
Feeding me lines like we back in the garden (Back in the garden)  
The sin of my own defeat (Own defeat)  
He want my eternity (Eternity)  
He want me to worship me, yeah, yeah, yeah  
Ayy, but I got the holy key (I got the holy key)  
I got these souls to feed (I got these souls)  
Devil get off of me (Devil get off)

He tryna corrupt what I know (Know)  
It's like the higher I go, the more I fold but  
Devil is a liar  
He want me like ain't no redeeming  
He see me and send in the demons  
He tell me I never beat him I look in the mirror like  
Devil is a lie if I ever seen one (Seen one)  
I'm built like an army yet he know my weakness  
Leaving me totally speechless (Ayy)  
I got it all the team, the dream, the money  
I still can't believe it ('Lieve it)  
I came from the bottom with nothing  
Created this wealth on my own  
Not many is on what I'm on (Ayy)  
Hit 'em like a Beretta whenever the devil decide  
To penetrate I meditate then off with the victory  
Got the enemy stealing me but the pen in me  
Full of venom I pull it to aim and hit 'em  
I rip it to really get him  
The spirit I really live it  
So vivid and evident with the flow like "Woo"  
Ric Flair drip  
I am the clip and I'm fully loaded  
Devil is a liar

More fire off on them  
Me say me give more fire off on them, yeah  
Let me give more fire off on them  
Me said me give more fire off on them, yeah

This one for the culture, for the one who holding  
The torch up high  
Them living to fight  
No don't be dem' on this side  
This here for my city

Bad boy like I'm Diddy  
See from the beginning

All him want is me off in the fire  
Jesus take me as I am  
Just a wretched sinner looking for the "I am"
