

# Fire

Steven Malcolm

I walk up on them like "what's happening, bro, let's get it popping"  
That turn up shortie and [?] we way up like rockets  
Ain't no low key with that Kobe we came with the rocket  
Kamikazes when that drop boy it's 'bout time to clock it  
I live by hope dealin' forgiving no chilling  
When that heat come bro ripping, dope with, it hope sipping, living water fu  
lfilling  
Seen no sinners when I spitting fire flame jocka playing  
King of Kings, Lord of Lords  
So are more  
Can I say ain't no way to the Father than grace  
Light us up we bring the fire straight from Zion  
Rockers know that rude boy shining reflecting the lion  
Real ting, put them in a sin or is it higher  
Give 'em everything we fear, it's limiting my fire

You see the flame come around now  
Watch as we light up the globe  
We're not gonna fade or be stomped out  
From miles away see our soul  
Fire, fire, fire, oh  
Fire, fire, fire, oh

I know that they ain't never heard nothing like this before  
Spit that truth, ball on it, blog on it, gotta put sauce on it  
Living that rhetoric [?] better be  
Ready [?] be killing this  
You know I'm back at it been addicted crack addict  
All day my day ain't no breaks going to take my rhymes to your glory  
Go get it no better cross all on the back go with us  
Sick is flow wicked  
Hit them with that 1-2  
Cause mayhem when I'm on the come up like whoo  
Canon busting with that light that bring the fire  
This become the way we carry you to the designer  
Never backing down, we fly away to the provider  
You are already on my team look up to the sky see

You see the flame come around now  
Watch as we light up the globe  
We're not gonna fade or be stomped out  
From miles away see our soul  
Fire, fire, fire, oh  
Fire, fire, fire, oh

You see the fire enemy adds when I do this  
They can never stop us we the flewest  
You say another word imma lose it  
Don't you disrespect us, we the truest

Fire, fire, fire, oh  
Fire, fire, fire, oh
