

# Glory On Me

Steven Malcolm

Now I feel the glory on me  
I can't tame the sound  
Got His story on me yeah  
Put no worries on me  
I can't take no Ls cause I know He for me

Now I feel the glory on me  
I can't tame the sound  
Got His story on me yeah  
Put no worries on me  
I can't take no Ls cause I know He for me

Search for it gotta work for it like yeah  
Always remind'em that your fighting for me  
Now I feel the glory on me  
The glory  
The glory

Glory, glory  
Feel the glory, the glory  
Glory, glory  
Feel the glory, glory

2009 in the dark chasing  
All I had up in my heart was basic  
God had to pick me apart was jaded  
Got me creating this art proclaiming  
Word all on me and I know you feel it  
Word all on me and I know aye!  
Bout time I give'em a sequel  
I been in quarantine with my people  
Shout out to 2020  
Reminding me to keep it about the people  
My people dying away  
And they need that hope  
I'm back in the studio  
Missing that dope  
Don't cut it or mix it  
I'm pure with that flow  
And He told me shine so  
I stay with that glow  
He took me from dirt and he planted a seed  
And He gave me the key  
Now my seed on the way  
Bout to break every curse in my family tree  
God took the brush and he painted the dream  
He showed me the tings that I needed to see  
Showed me the ups, showed me the downs  
He said through it all  
I'm still gonna feel it!

Now I feel the glory on me  
I can't tame the sound  
Got His story on me yeah  
Put no worries on me  
I can't take no Ls cause I know He for me

Search for it gotta work for it like yeah  
Always remind'em that your fighting for me

Now I feel the glory on me  
The glory  
The glory

Granny up there pulling a string or 2  
Grabbing the wheel that's God's passenger  
So much life happen aye look how I'm rapping  
Life's a movie called my blessings  
My darkest days been life lessons  
Place peace in my heart when I'm stressing  
I ain't no preacher or deacon or reverend  
But this testimony from all of the testing  
Being present with the demons present  
Appreciate any lil piece of heaven  
And any deals got God's leverage  
Taste and see it's the best beverage  
A bottom dweller but a top turner  
Aye I fill up doing you a service  
May not look the part but I'm God's servant  
God's trap, and His wrist workin', wrist workin'

Now I feel the glory on me  
I can't tame the sound  
Got His story on me yeah  
Put no worries on me  
I can't take no Ls cause I know He for me

Search for it gotta work for it like yeah  
Always remind'em that your fighting for me  
Now I feel the glory on me  
The glory  
The glory
