

Great

Steven Malcolm

I cannot wait
I told 'em I'ma be great
I cannot wait look at my plate
It got me raising the steaks
I've been on 10 playing to win
Touchdown right out the gate
From the begin going all in
How you expect me to wait

I cannot wait yeah
I used to live in my sin
God told me repent
Pick up your mat and go be a legend
I look at the people see a bigger picture
This is more than music make the kingdom richer
I've been flipping tables at the temple hoping any one of y'all run up

Like I cannot wait
Been on my game never late
Jesus he gave me the keys and I told him I'll give you everything that it ta
ke
Give 'em the hope to escape
Dayme on the beat and I skate
You cannot ride on my wave
You see the look on my face like I cannot wait

Yeah I cannot wait, wanna know why
I told 'em I'ma be great
I cannot wait look at my plate
It got me raising the steaks
I've been on 10 playing to win
Touchdown right out the gate
From the begin going all in
How you expect me to wait

How you expect me to wait
How you expect me to act like tomorrow is promised today
24 hours I ain't got no time to waste like the first 48
God got me but bring one just in case
Me and Malcolm we like one in the same
Carving a lane for the city while making a name
For ourselves we all made in his image
I look just like the creator of 2K my player
We up the score it's a layup
Body armor on me multiple flavors
Body armor on me like the tomb raider
International performed multiple places
I'm going through stages
Can't waste a second, it was second nature
I was record-breaking on this record player knew that I was greater
I can't wait till later
Movin' wrong if you ain't prayed up
Turn a minor to a major
Finer China to a cater
Look at my plate it's got me raising the steaks
And that's got my weight up
But I cannot wait up that's because I'm destined for greatness

And I'm on my way up

I cannot wait
I told 'em I'ma be great
I cannot wait look at my plate
It got me raising the steaks
I've been on 10 playing to win
Touchdown right out the gate
From the begin going all in
How you expect me to wait
