

Leh Get It

Steven Malcolm

I make music that they can feel
Music that talk bout that real
Music that crank up and kill
Kill em' with the retro J's on
Mad hi-hats with the bass on
Salt of the world like say so
Homie you know I turn up all day long
Gotta build the body like a lego
Gotta get it popping like fake o'
I do it for the name not the peso but
They come in everyday so I'm straight though
I live for the rock, straight from the block, Watch me send shots
City say [?] is the part Amendola to Reggie Miller on my crew I'm the shooter
Grindin' all day like I've been had a deal
Now that boy gotta deal
I be putting that work like a single
Mother 4 kids and no baby daddy
No coins in the press got me sprinting to first
Dab on them daily
That hating my Savior
Of course they gonna hate me
Don't whip a Mercedes
But I got three points that is luxury baby
Turn up go crazy
Be all that I know homie never or maybe
Smooth with the flow
You can say I'm the light-skinned version of Swayze

Light of the truth homie that's how we ride
I'm going to keep it lit set the world on fire
Swagger on ten homie that how we do it
Realist one with it leh get it leh get it

Time to bring back repo
Young boy going beast mode
Y'all worry bout these those
Who run the game no cheat code
On yeesh whoah
97 plus 3 more
Wild boy no speed steve-o
We win, ya'll lost like Nemo
Leh get it, leh get it, leh get it, leh get it
Leh get it, leh get it, leh get it, leh get it

Light of the truth homie that's how we ride
I'm going to keep it lit set the world on fire
Swagger on ten homie that how we do it
Realist one with it leh get it leh get it

Time to bring back repo
Young boy going beast mode

Leh get it, leh get it, leh get it, leh get it
