

Monster

Steven Malcolm

Enter the building and they better get down
Whole room stop when the man come through
Feel like I'm it now
No clown but I do eat my ops like grits now
Mask off, I'm the future
Can't see the heart so they judge my insta
Chat bout man n collab
Chill dat for the boogie man come and get ya
Grim hat, one glove, kick wit stick back
Wide is the road don't pick dat
Crooked my ways until He came
Seen a ghetto youth n fix dat
Kill my flesh, look under my bed
Then see the demons they come for my head
Lying awake while they lying and waiting to
Devour the kid and so they

There's a monster living underneath
If I said there wasn't I'd be lying through my teeth
So will I finally find me and find the real me
Will I finally find me and set the monster free

There's a monster living underneath
If I said there wasn't I'd be lying through my teeth
So will I finally find me and find the real me
Will I finally find me and set the monster free

Call me the villain, call me the monster
But look who the one's throwing the stones
Tryna off ya
Sticks n stones break my bones but it will cost ya
They can't cancel what God planned when He's called ya

Don't try to lie to me
What be inside be haunting and wicked
Daily I pry to
Peel back the layers
It took me a minute
Faithful I battle
Sword on my side
I'm ready to drill it

There's a monster living underneath
If I said there wasn't I'd be lying through my teeth
So will I finally find me and find the real me
Will I finally find me and set the monster free

There's a monster living underneath
If I said there wasn't I'd be lying through my teeth
So will I finally find me and find the real me
Will I finally find me and set the monster free
