

Nothing Into Something

Steven Malcolm

My God took nothing turned it into something
Take a look and see
How He craft a masterpiece
This kind of loving, ain't none above it
My God takes nothing
Turns it into something

I got a cousin 'bout to be 1 year sober
Addiction had him gripped
Almost dipped into that coma
Left empty as them bottle
Broken past to deal wit
Tryna numb the pain
PTSD I feel it
I know a shawty 16 and she pregnant
Told me life was over, and her parents don't accept it
Thinking about abortion crying tears as she spoke
Told her God got her back, and that baby gon' be hope
Yeah yeah yeah

'Cause my God turns nothing into something
Ain't no mountain too high, ain't no valley too low
Ain't no one that's too far, anywhere Him want go

My God took nothing turned it into something
Take a look and see
How He craft a masterpiece
This kind of loving, ain't none above it
My God takes nothing
Turns it into something

Got a lot up on my mind that's including
Suicide
Lil man been feeling this way pain buried deep inside
What to do when mental health is at an all time low
My bro Zack been feeling lately death been knocking at his front door
He won't let it back in
I got woes that slung dope
Now they give the block hope
They wait to see a miracle
I tell 'em just look around
Stories of the broken, that's the new Heaven sound

My God took nothing turned it into something
Take a look and see
How He craft a masterpiece
This kind of loving, ain't none above it
My God takes nothing
Turns it into something

My God took nothing turned it into something
Take a look and see
How He craft a masterpiece
This kind of loving, ain't none above it
My God takes nothing
Turns it into something

My God took nothing turned it into something
Take a look and see
How He craft a masterpiece
This kind of loving, ain't none above it
My God took nothing
Turned it into something
