

Red Light Green Light

Steven Malcolm

Red light green light go
Headlights bling like whoa
Legend like three Michaels
Tyson Jackson Jordan you ain't
Never seen this before
Right now feeling real important
About to takeoff and go to orbit

Red light green light go
Headlights bling like whoa
Legend like three Michaels
Tyson Jackson Jordan you ain't
Never seen this before
Right now feeling real important
About to takeoff and go to orbit

Green light I've been grinding since CJ McCollum was balling at Lee High
I've been styling since back in the freestyles
Write my story in the book of Eli
I just stepped off the plane and I still got wings been fly since they flew
G5
I spoke the truth to the evil, God protect me the next time 3 die
No time to waste but in the meantime
I'm gonna stop at the shop get a fit just to rock on the way to the top of the
mountain
I just got to the Airbnb in the clouds I swear I saw angels surround it
I've been in my own lane since my first ride I've been moving real different
since Nip died
I've been staying out the way
I've been ducking all the fame
I've been sizing down the game
I've been seeing all of the conniving
God watch out for the trees and the trifling
Swear I'm used to the cold like a Viking
Swear I'm used to the war and the fighting
That just comes with the lifestyle
Now I got to go hop on this flight now

Red light green light go
Headlights bling like whoa
Legend like three Michaels
Tyson Jackson Jordan you ain't
Never seen this before
Right now feeling real important
About to takeoff and go to orbit

Red light green light go
Headlights bling like whoa
Legend like three Michaels
Tyson Jackson Jordan you ain't
Never seen this before
Right now feeling real important
About to takeoff and go to orbit

Four against five that's gang
Don't touch that that's Wayne
I remember crying in the storm

Lately I've been learning how to dance
I was praying for another chance
School bullies turning into fans
Not forgetting when they overlooked
Now they begging trying to get a glance
My name NINO
I need to register my style they copy my flow
When I open mouth they hear fee fi fo
That's 66 I stay strapped feel like GI JOE
With the sauce finger licking teriyaki
With the new addition feeling like I'm Bobby
Tell him that I ain't illuminati
To keep an eye open like Akashi
IVAV tatted on my heart
Means hit the ground before we hit the charts
From the bottom moving to the top
I'm still a rebel after the music stops, Alien

Red light green light go
Headlights bling like whoa
Legend like three Michaels
Tyson Jackson Jordan you ain't
Never seen this before
Right now feeling real important
About to takeoff and go to orbit

Red light green light go

Midwest Midwest imagine this here ain't as big as it get
I've been around the world probably with your favorite artist I don't get more realer than this
Put the whole team on my back if they shot up in battle it's just in my DNA
Life been a PSA I can't complain venues get packed want to see what I say
Feel like the baddest man on the planet
But I am from this world been abandoned
I hit a switch tell 'em get the camera
Then do magic on the mic Danny phantom
Picture of my life it's looking panoramic
View from the top I pray I never panic
Got parachute just in case I feel like jumping
And dropping on 'em just to turn up the function
I bring that livin' water to the people
I got 'em feeling the Voss
It's about time that I run up the sequel
I'm never taking a loss
I'd rather rack up the wins with my family
Take the wifey on vacation
It's about time for the real though
Strap myself in for the taking
