

HA BLOODY HA

Steven Wilson

Wake up
The house is on fire
The people like us
Just walk away

Wake up
The world is on fire
Well, people like us
Just watch it burn

It makes me laugh my head off
It's all getting blown away
Now I'll make a statement
This is all just light entertainment
And you get all you deserve

Well, I can laugh
But I know the joke's on me
'Cos people like us
You just won't believe

It's making me feel so much older
It's all gonna end today
'Cos I'm just a loser
With a sick sense of humour
And you get all you deserve

It makes me laugh my head off
It's all getting blown away
Now I'll make a statement
This is all just light entertainment

It's making me feel so much older
It's all gonna end today
'Cos I'm just a loser
With a sick sense of humour
And you get all you deserve
