

Inclination

Steven Wilson

Come see the fool
He'll swindle you out of the game
Bow down to him
But don't ever give him your name
He stole it from somebody else
He can fake it forever
The sugar and void in the holdall
It's pulling me down to you level

One at a time I will take you all on
If you've got the time then I've got the inclination

Don't hold it back
Just say what you really think
One at a time please spare me
It's the open season, yeah
You gave me a part in a movie
And I gave you a target to aim at

One at a time I will take you all on
If you've got the time then I've got the inclination
Inclination
