

SELF

Steven Wilson

(Self)

(Self)

Self-help and self-aware
Self-made millionaire
Turn it up and tone it down
Entertain like a fucking clown

Self-image and self-belief
Selfish acts between the sheets
Self has no sense of tact
Self is too self-detached

We are self, the self that loves itself now
We are self, I only see myself now

Self-absorbed and self-obsessed
If not me then someone else
Self sees a billion stars
But still can only self-regard

We are self, the self that loves itself now
We are self, I only see myself now

(I am the universe)

We are self, the self that loves itself now
We are self, I only see myself now
We are self, the self that loves itself now
We are self, I only see myself now
