

Can You Feel It

Stevie B

Maybe it's something that
you said to me
that's just got me barely holding on
Girl I'm praying soon
that you set me free
When you touch me
feelings come over me

Chorus

Can you feel it

Feels so good when it's
deep inside of me

Can you feel it

Deep in my heart and
I just can't let it go

Can you feel it

Give me a chance you see
we could have so much fun

Can you feel it

Feel my beating heart 'cause
it's been like a drum

Another day has gone and
I feel this way
Daydreams of lovely
memories of your face
Up at night I just can't sleep, no way
The power of love is taking over me

Repeat Chorus
