

# Come Back

Stevie B

When you said you were leaving  
after all that we've been through  
and when you said it was over  
and there was nothing I could do  
to change your mind

I can't stop looking at the door  
I'm sleeping by the phone  
I sit and watch the kids go by  
my happiness is gone

Come back and see about me  
just come and see how I'm doing  
since you've been gone  
and left me here all alone  
since you've been gone

come back and just see my face  
and tell me why I'm crying  
every night and day  
I only want to see you once again

come back to me

Don't you know it's not easy  
not knowing not just where you are  
where you are  
and for the love you have gave me  
I hope you are safe and warm  
every night and day

I can't stop staring at that door  
I can't stop sleeping alone  
I tell myself that I'll be fine  
how could you just leave me alone

Come back and see about me  
just come and see how I'm doing  
since you've been gone  
and left me here all alone  
since you've been gone

Come back and just touch my face  
and tell me I'm not dying  
and it's ok  
I wish that I could touch you

I feel I'm stuck in the pouring rain  
I just can't weather the storm  
it's hard to live without you here  
I just don't know how to go on  
to go on

Come back and see about me  
night and day  
every night and day

since you've been gone

Come back and just touch my face  
my heart is swollen from crying  
make it go away  
I only want to love you

Come back and see about me  
just come and sit by your baby boo  
cause I miss you

since you've been gone

Come back and just touch my face  
my heart is swollen from crying  
every night and day  
I only want you to love you me

Come back and see about me  
come back to me
