

Come with Me

Stevie B

You think that just because I'm serious
I'm not the one
I'd like to tell you, girl
There's a time and place for having fun
I love you more than words could ever say
The love I have you, girl will never go away

Bridge:

I want to give you more, take a chance
What are you waiting for, take my hand
And you'll feel my love
Just try with me and you will see love

Chorus:

Come with me, I'll love you better
Come with me, No other love can do you right (Repeat)

There comes a time in your life to say goodbye
A time to leave all the good things you did behind
No it's not easy
They'll say you're crazy, love is blind
Come on and take a chance with your heart
