

Day N' Night

Stevie B

I just don't believe that you won't look at me
But someday me and you will come around
Think about you all the time
Girl I'd like to make you mine
It's your love someday I hoped to find

'Cause I believe when we will become lovers someday
Just take my hand, girl
Show you the way to my heart

Day and night
I think about all the time
Day and night
I wanna be your lover

Day and night
I think about all the time
Day and night
I wanna be your man

What must you take me through
To see I'm the one for you
No one can give you better love
Just let me come in to your heart
And you see right from start
There's no better love you will find

'Cause I believe when we will become lovers someday
Just take my hand, girl
Show you the way to my heart

Day and night
I think about all the time
Day and night
I wanna be your lover

Day and night
I think about all the time
Day and night
I wanna be your man

You see I need you girl more and more
And you are the one I adore
Sweet than honey, hard to resist
I show you this love when I see your kiss

I believe that we will become lovers someday
Just take my hand, girl
Show you the way to my heart

I just don't believe that you won't look at me
But someday me and you will come around
Think about you all the time
Girl I'd like to make you mine
It's your love someday I hoped to find

'Cause I believe that we will become lovers someday

Just take my hand, girl
Show you the way to my heart

What must you take me through
To see I'm the one for you
No one can give you better love
Just let me come in to your heart
And you see right from start
There's no better love you will find

'Cause I believe that we will become lovers someday
Just take my hand, girl
Show you the way to my heart

Day and night
I think about all the time
Day and night
I wanna be your lover

Day and night
I think about all the time
Day and night
I wanna be your man

Day and night
I think about all the time
Day and night
I wanna be your lover

Day and night
I think about all the time
Day and night
I wanna be your man
