

I'm Not Crazy

Stevie B

Can I tell you what I see for tomorrow
If we continue on the road of yesterday
We are heading our deepest darkest sorrow
Can you tell why it has to be that way

This is a message for oppressive leaders of the world
For all the lonely people who put their trust in you
This is a dawning of a new tomorrow shining out
Soon the lonely people will be guiding you

Hey now

Who is crazy I'm not crazy
We only care about the world
The way it's going we're not growing
Can't do what we used to do

Who is crazy I'm not crazy
Will you take a stand with me
Soon you'll discover I'm your brother
Just trust in god an soon you will see

Can I tell you what I see for tomorrow
If we begin to pray as one around the world
Cause if you believe as I believe then come alive
And the whole of all worlds is calling you

This is a message for the children of tomorrow
To feel the power of creator's light inside of you
For so very long there's been another
This is the dawning of a new tomorrow calling you

Hey now

Who is crazy I'm not crazy
We only care about the world
The way it's going we're not growing
We can't do what we used to do

Who is crazy I'm not crazy
Will you take a stand with me
Soon you'll discover I'm your brother
Just trust in god an soon you will see

This is a message for the children of tomorrow
To feel the power of creator's light inside of you
For so very long there's been another
This is the dawning of a new tomorrow calling you

Who is crazy I'm not crazy
We only care about the world
The way it's going we're not growing
We can't do what we used to do

Who is crazy I'm not crazy
Will you take a stand with me
Soon you'll discover I'm your brother

Just trust in god an soon you will see

Who is crazy I'm not crazy
We only care about the world
The way it's going we're not growing
We can't do what we used to do

Who is crazy I'm not crazy
Will you take a stand with me
Soon you'll discover I'm your brother
Just trust in god an soon you will see
