In my life I realizing more and more
That surely it takes time
For lovers too mature
Every day we're gonna have to
Deal with something new
To learn about me and you
There's something we gotta know

Life goes round and round, we deal With the ups and downs of love
You live it from day to day
You don't walk out when
Things get a little down
There is a plan for us
I'll give you my love and trust
If you'll give your love to me
I know we can make it
If we just believe in us

All my friends, they wanna know
The secrets to stay in love
How we stay together
When others are breaking up
When problems come
You gotta have a reason to indoor
Do your love be true
And good things will follow you
Then I say

Life goes round and round, we deal With the ups and downs of love You live it from day to day You don't walk out when Things get a little down There is a plan for us I'll give you my love and trust If you'll give your love to me I know we can make it If we just believe in us

Life goes, Life goes
Round and round, round and round
Life goes, Life goes
Round and round, round and round

I know we can make it baby
Just me and you
The world is ours
Just keep our faith in God
And the family
Cause world goes round and round
And round and round

Life goes round and round, we deal With the ups and downs of love You live it from day to day You don't walk out when

Things get a little down
There is a plan for us
I'll give you my love and trust
If you'll give your love to me
I know we can make it
If we just believe in us

Life goes round and round, we deal With the ups and downs of love You live it from day to day You don't walk out when Things get a little down
