

Take It All Back

Stevie B

Do you remember way back n time
When the world wasn't so uptight
Hot damn I miss it
Hot damn I miss it

We where young we where wild and free
All we wanted was to move our feet
Hot damn I miss it
Hot damn I miss it

You looked around and everybody was
Getting down
No one on the wall or standing out in the crowd
We put problems up on the shelves
And enjoyed ourselves
I know it helps

If we could take it all back
To how it used to be
An 808 you and me
It's all love
If we could take it all back
To breakin' in the streets
And fall in love to the beat
We were one if we could take it all back

Back back back
Back back back
Back back back
Take it all, take it all back
Back back back

Back to it's Friday night
Hot wheels in Miami it was you and I
Hot damn I miss it
Good times no static
South beach did something right
A little heat to the mix made dynamite
Freestyle was so lit
Couldn't tell us nothing

We put the groove, the sound, the love
On the radio
Power 96
Took it and made us unstoppable
They say good music never gets old
It should move your soul
I know you know

If we could take it all back
To how it used to be
An 808 you and me
It's all love
If we could take it all back
To breakin' in the streets
And fall in love to the beat
We were one

If we could take it all back

Back back back
Take it all, take it all back
Back back back
Take it all, take it all back

To the days when the place to be was the
Basement or the rollerskating rink
I know you miss it
I know you miss it
And the DJ would make it sweet when he played
Planet Rock or Stevie B
Those jams was hittin'
Damn right they hittin'

You look around and everybody had a smile
Rocking braids, and fades, and Pumas that was freestyle
Our only worry was the curfew
What our folks would do
Tell you the truth...
Wish we take all back

To how it used to be
An 808 you and me
I'ts all love
If we could take it all back
To breakin' in the streets
And fall in love to the beat
We were one
If we could take it all back

Back to the good times
Weekend nights
We got fly
Doin' the whop till daylight
If I could I'd press rewind
To 85'
Make sure you're by my side
So we could go back

To how it used to be
An 808 you and me
It's all love
If we could take it all back
To breakin' in the streets
And fall in love to the beat
We were one if we could take it all back

Back back back
Take it all, take it all back
Back back back

Back back back
Take it all, take it all back
Back back back

Back back back
Oooh back back is go back
Back back back
Oooh back back is go back
