Always Be My Lady

Stevie Hoang

(You'll always be my, you'll always be my) be my lady
(You'll always be my, you'll always be my) always be my lady
(You'll always be my, you'll always be my), ouu woo wooo ouu

Baby just, sit back and chill, I wanna talk to you, let me show you, how much I'm feeling you
Whenever you're around you turn my gray skies into blue,
I feel so blessed to have you by my side,
Just like a drug you got me so high
And ever since I met you girl my life has been so brand new

You make me say (ohh woo ohh) I've never had a love like this
You make me say (ohh woo ohh ohh) I'm so into you

Baby I just wanna let you know, you'll always be a part of me,
It don't matter how far I go you'll always be my lady
Baby, I just wanna make you see, there's no where else I'd rather be
I'd be damned if I let you go, you'll always be my lady

(You'll always be my, you'll always be my) be my lady
(You'll always be my, you'll always be my) always be my lady
(You'll always be my, you'll always be my), ouu woo wooo ouu

Girl I cherish every moment, that I spend with you(with you)
No one else will do(will do), I'm so in love with you
And when I'm lost and don't know how to find a way
You'll be right there, you know just what to say
Forever here beside you girl is where I wanna be

You make me say (ohh woo ohh) I've never had a love like this
You make me say (ohh woo ohh ohh) I'so into you
Baby I just wanna let you know, you'll always be a part of me,
It don't matter how far I go you'll always be my lady

Baby, I just wanna make you see, just as sure as my name was stevie
Girl I'm never gonna let you go, you'll always be my lady

And through the rain and stormy weather(girl I know)
Were gonna make it through together
Girl you're everything I need(everthing I need), and with you my life s complete
And I promise I will never let you go, baby

Baby I just wanna let you know, you'll always be apart of me,
It don't matter how far I go you'll always be my lady
Baby, I just wanna make you see, there's no where else I'd rather be
I'd be damned if I let you go, you'll always be my lady (2x)

(You'll always be my, you'll always be my) be my lady
(You'll always be my, you'll always be my) always be my lady
(You'll always be my, you'll always be my, ouu woo wooo ouu
