

First Time

Stevie Hoang

Tonight we'll make love for the first time
(Yeah, yeah, yeah, yeah, yeah)
(Yow babe, I know it's our first time)
(But, we ain't got to rush)

Girl you know that I want you babe
I ain't tryin' to hide it babe
When I look into your eyes
You can see how much I'm feeling you
Darling if you only knew
The things that's rolling in my mind
We've been kicking in now for a while
Usually that's not my style
And I ain't tryin' to wait no more
I'm a make sure that the mood is right
Tell me babe whatch you like?
I'm a give you what you've been waiting for

Are you ready girl?
I wanna go there with you
And there's nothing that I'd rather to do
Then be here tonight
The feeling is right
Tonight we'll make love for the first time
I wanna go there with you
And there's nothing that I'd rather do
We've waited so long
The feeling is strong
Tonight we'll make love for the first time
First time, first time, first time
Tonight we'll make love for the first time
First time, first time, first time

Girl you don't have to worry
Let's dim the lights down low
There's no need to hurry
Girl we can take it slow
Girl you're so beautiful
I've gotta let you know
So come right here
Take that off
Now babe let's go

You can ride, you can ride, you can ride girl
C'mon ride it, C'mon ride it, C'mon ride it girl
(2x)

Are you ready girl?
I wanna go there with you
And there's nothing that I'd rather to do
Then be here tonight
The feeling is right
Tonight we'll make love for the first time
I wanna go there with you
And there's nothing that I'd rather do
We've waited so long
The feeling is strong

Tonight we'll make love for the first time
First time, first time, first time
Tonight we'll make love for the first time
First time, first time, first time

Listen babe
Shorty, there ain't nothing wrong with being naughty
We can keep on going till the morning
It's going to be my name that you'll be calling
(2x)

Are you ready girl?
I wanna go there with you
And there's nothing that I'd rather to do
Then be here tonight
The feeling is right
Tonight we'll make love for the first time
I wanna go there with you
And there's nothing that I'd rather do
We've waited so long
The feeling is strong
Tonight we'll make love for the first time
First time, first time, first time
Tonight we'll make love for the first time
First time, first time, first timeAre you ready girl?
I wanna go there with you
And there's nothing that I'd rather to do
Then be here tonight
The feeling is right
Tonight we'll make love for the first time
I wanna go there with you
And there's nothing that I'd rather do
We've waited so long
The feeling is strong
Tonight we'll make love for the first time
First time, first time, first time
Tonight we'll make love for the first time
First time, first time, first time
