

In Love Alone

Stevie Hoang

I wish that I could make you love me, make you love me
But I know you don't feel the same
I just want to hold you closely and kiss you softly
But nothing is ever gonna change
Cause you just can't make your heart feel something that it don't
When the fire is gone, you've got to let it go
Wish that I could make you love me
But what's the point in holding on, when you're in love alone

Baby just sit back down on the bed
Look me straight in the eyes and tell no lies
Then trying so hard to make it work, but it feels like we're running
out of time
Gotta face up to reality, been trying to fix something that ain't the
re anymore
I wish that I could stay but I'm falling apart and I just can't sleep
with a broken heart

I wish that I could make you love me, make you love me
But I know you don't feel the same
I just want to hold you closely and kiss you softly
But nothing is ever gonna change
Cause you just can't make your heart feel something that it don't
When the fire is gone, you've got to let it go
Wish that I could make you love me,
But what's the point in holding on, when you're in love alone

When you're in love alone
When you're in love alone

So many fights and sleepless nights
This just isn't how love supposed to be
My heart is telling me I should stay
My head is telling me that I should leave
Been holding on now for far too long
Deep down inside I know it's time to give up the fight
I wish that I could stay but I'm falling apart and I just can't sleep
with a broken heart

I wish that I could make you love me, make you love me
But I know you don't feel the same
I just want to hold you closely and kiss you softly
But nothing is ever gonna change
Cause you just can't make your heart feel something that it don't
When the fire is gone you've got to let it go
Wish that I could make you love me,
But what's the point of holding on, when you're in love alone

When you're in love alone
When you're in love alone
