

My Everything

Stevie Hoang

It's crazy seeing you again
It's been so long
How you been?
You still look just the same
I swear you haven't changed
I heard you moved out of town
You must be married by now
You've always been the type to settle down

Before you walk away
I just wanna say
I'm glad you found someone
Who's gonna treat you right
I know this is too late
And nothing's gonna change
But just so you know

Baby, if I could turn back time
I would change everything
I would change everything
Now that I've realized
You, was my everything
You, was my everything
My everything
(My lover, my homie, my friend)
My everything
(My baby my girl 'til the end)
My everything
(My lover, my homie, my friend)
My everything
(My baby my girl 'til the end)

There's nobody that will ever know me
Better than you
Better than you you?
There's no one who makes me feel the way
You used to do
You used to do

I was a fool
I had my pride so I didn't call
I only knew you were the one
When I let you go
You were the love of my life
I wish that I could rewind
Just so you know

Baby, if I could turn back time
I would change everything
I would change everything
Now that I've realized (now that I just realized)
You, was my everything
You, was my everything
My everything
(My lover, my homie, my friend)
My everything
(My baby my girl 'til the end)

My everything
(My lover, my homie, my friend)
My everything
(My baby my girl 'til the end)

My everything
My everything
