

The Way We Used to Be

Stevie Hoang

It's been a year,
Girl how you been?
Fancy see in you again
I tried to call, got no replay
So I thought I'd just,
Let sleepin looks like
Apparently, you seetle down,
But your man's never around,
And if thats all, baby you should know-

If you've had enough of searching baby,
You can come see me.
If you need somewhere to ease your mind,
Let your soul be free
Baby I know what you want,
I got what you need,
So why can't we get it together-
The way we used to be?

You says he loves you,
If that's the truth.
Then why does he do those things to you?
You give your heart, he pushes away-
Baby, why the hell do you stay?
You say it's love, jus like the song.
Baby i can't prove you wrong-
And if I can, I should be your man.

If you've had enough of searching baby,
You can come see me.
If you need somewhere to ease your mind,
Let your soul be free
Baby I know what you want,
I got what you need,
So why can't we get it together-
The way we used to be?

I remember how, your love used to feel.
My broken heart took time-to heal baby.
I can't recall, why we fell apart.
You say you're looking for love
oull be true to your heart.

baby...
if you've had enough

If you've had enough of searching baby,
You can come see me.
If you need somewhere to ease your mind,
Let your soul be free
Baby I know what you want,
I got what you need,
So why can't we get it together-
The way we used to be?

If you've had enough of searching baby,
You can come see me.

If you need somewhere to ease your mind,
Let your soul be free
Baby I know what you want,
I got what you need,
So why can't we get it together-
The way we used to be?
