Take Our Time

Stevie McCrorie

Only you, saw me fading from the light.
Just you, lead the way inside my mind.
Sometimes i felt just like a ghost, disappering.
With you beside me i got hope, and god knows.
This wont be easy, rough roads, nowhere they're leading.

We'll take our time, and start a new life.
And build a home from dust, a kingdom just for us.
If we could stay forever, all together.
Lets take our time, and make a new life.

For you, i walk my feet down to the bone.
My shoes, worn away and full of stones.
We have to find out who we are, keep on searching.
Climb up the ladder from the dark, and god knows.
This wont be easy.

We'll take our time, and start a new life.
And build a home from dust, a kingdom just for us.
If we can stay forever, all together.

Lets take our time, and make a new life.

We'll take our time, start a new life.
We wont look back, love never dies.
Stay forever, all together.

God knows, it wont be easy but if we take our time
